Date \_\_\_\_\_

The following \_\_\_\_\_ puppy born on \_\_\_\_\_, of \_\_\_\_\_ (dam) and \_\_\_\_\_ (sire) is hereby sold to the undersigned of the total purchased price of \$\_\_\_\_\_ which must be paid in full (cash/card) before puppy is released to new owner. The seller, by accepting a deposit of \_\_\_\_\_ (for each puppy) agrees to hold the puppy for the buyer until the release time. The deposit is non-refundable deposit that will be subtracted from the total sale price.

To the best of our knowledge that the above described puppy is in good health and of pet quality at the time the puppy leaves Seller's possession. Reasonable care has been exercised to prevent or eliminate parasite and/or skin problems. If a puppy does present these problems on an exam, it is the new owner's responsibility to pay for medications.

Buyer should have a licensed veterinarian examine this puppy within 30 days of purchase. If a licensed veterinarian declares this puppy in unacceptable health and the puppy and paperwork are returned to the seller within 7 days of examination, Seller will refund the purchase price or exchange it for another similar puppy when available. A written statement from the veterinarian is required.

We do not guarantee against conditions brought on by stress or environmental changes that we cannot control once the puppy leaves our care. We do not guarantee against hypoglycemia, parasites, worms, viral, or bacterial infections. We are not responsible for Pavo, distemper, corona virus or kennel cough after 48 hours from release of the puppy.

If within the first 12 months of age a licensed veterinarian diagnoses this puppy with a genetic health defect that causes death or is life threatening, the puppy will be replaced with one puppy of equal or lesser value (as per original purchase price) as soon as one is available. Buyer will be responsible for the price difference if the buyer chooses a puppy of greater value. To exercise such a replacement option, Buyer must submit from a licensed veterinarian, either a medical report stating that a severe health problem attributed to a genetic defect exists, or proof of death resulting from a genetic problem. Should a death occur due to an unknown cause, a licensed veterinarian must perform an autopsy, with a copy of the report forwarded to Seller before determining if a replacement is to be made. All expenses are the Buyer's responsibility including the shipping of a replacement puppy.

Descending of testicles, hernias or inability to breed or perform in shows is not covered by the warranty. Color, weight, temperament, etc. cannot be guaranteed in a young puppy.

However, Seller can make an educated guess based upon the parent's physical characteristics and personality, as well as previous litters. We will not be held responsible for any vaccinations given by a veterinarian after the puppy has left our care. We have already given all proper immunizations needed at time of sale for age and weight. This contract does not cover eye or ear problems, skin problems, Giardia, coccidia, worms, teeth or bite problems, luxating patellas, hip problems, hernias, or undistended testicles.

We do not cover sickness or death due to the result of negligence on the part of the owner. A puppy should not be in contact with any other unknown dogs\puppies until 10 days after the 3rd shot. This includes places where dogs frequent. We also recommend that your puppy be started on heartworm as soon as you get it. All pups will receive their first shot at 6 to 8 weeks of age; worming from 2 to 8 weeks; dew\tails done; vet check at 1-3 days old and 6 to 7 weeks old. All pups will come with a shot/health record, vet statement and other paperwork.

The full contract price must be paid (card, cash, or Venmo) prior to delivery of pup or at pick up. This contract must be signed prior to delivery or pick up; we cannot release a pup without the signed contract.

Buyer agrees to provide the pup with a proper, loving, inside home. The pup is not being bought for resale and if at any time the pup cannot be cared for, that you will contact us to help you find it a proper home. Any pup may be returned at any time throughout its life with no exchange of funds.
